

There are a huge number of different ways to protect your identity and privacy online. Picking out what's best is tough, since their aims are different. We've identified Abine Blur as an Editors' Choice because it offers a wide variety of privacy features that are quite useful. Our other privacy Editors' Choice, **PreVeil**, takes a completely different tack, offering high-tech encrypted email that's both easy to use and free.

## Neil J. Rubenking

### Lead Analyst for Security

Neil Rubenking served as vice president and president of the San Francisco PC User Group for three years when the IBM PC was brand new. He was present at the formation of the Association of Shareware Professionals, and served on its board of directors. In 1986, *PC Magazine* brought Neil on board to handle the torrent of Turbo Pascal tips submitted by readers. By 1990, he had become *PC Magazine's* technical editor, and a coast-to-coast telecommuter. His "User to User" column supplied readers with tips and solutions on using DOS and Windows, his technical columns clarified fine points in programming and operating systems, and his utility articles (over forty of them) provided both useful programs and examples of programming in Pascal, Visual Basic, and Delphi.

Mr. Rubenking has also written seven books on DOS, Windows, and Pascal/Delphi programming, including *PC Magazine* DOS Batch File Lab Notes and the popular *Delphi Programming for Dummies*. In his current position as a *PC Magazine Lead Analyst* he evaluates and reports on client-side operating systems and security solutions such as firewalls, anti-virus, anti-spyware, anti-spam and full security suites. Mr. Rubenking is an Advisory Board member for the Anti-Malware Testing Standards Organization, an international non-profit group dedicated to coordinating and improving testing of anti-malware solutions.

# Best System for Privacy

The logo for PC Magazine, featuring the letters "PC" in a large, bold, white font on a red background. Below "PC" is the text "PCMAG.COM" in a smaller, white, sans-serif font.
