PreVeil Email + Drive for CMMC Compliance

PreVeil's Email and File Sharing platform protects CUI with end-to-end encryption and FIPS 140-2 validated modules. PreVeil offers inherited or partial support for 102 of 110 NIST/ CMMC controls and meets DFARS 7012 c-g, is FedRAMP Moderate Equivalent, and all data is stored in FedRAMP AWS GovCloud facilities.

Benefits to Your Customers

Easy to Deploy & Use

Deploys in hours using your existing email address and integrates with common tools.

Proven Solution

Contractors, MSPs, and C3PAOs use PreVeil to achieve 110/110 scores in CMMC assessments.

Save 75% vs GCC High

Only users handling CUI require a low-cost license and communication with 3rd parties is free.

Who We Serve Best

Small and Medium Defense Contractors

Large Enterprises with Defense Subsidiaries

International Companies or those with ITAR data

Universities Conducting Defense Research

“PreVeil has proven to be the most cost-effective compliance solution for our clients. We've won new business and helped multiple customers achieve perfect 110 CMMC assessment scores—all while saving them significantly compared to GCC High alternatives.”
