

PreVeil Partner Launch

LinkedIn Announcement Templates

Congratulations on becoming a PreVeil Partner. Use the templates below to announce the partnership to your network on LinkedIn.

Pick the version that fits your audience. Options 1–3 are written for RPOs and consultants. Options 4–6 are written for MSPs and resellers. Swap in your company name, post, and tag PreVeil.

For RPOs & Consultants

Option 1

RPOS / CONSULTANTS

Exciting news — [Your Company Name] is now a PreVeil partner. 🤝

As CMMC becomes mandatory for defense contractors, we connect our clients with solutions that work. PreVeil's FedRAMP Moderate Equivalent solution makes CMMC compliance achievable without blowing the budget or disrupting operations.

What this means for you:

- End-to-end encrypted email and file sharing
- 100+ perfect 110/110 CMMC Level 2 assessments
- Deployment that protects CUI without the headaches

Handling CUI or bidding on DoD contracts? Let's talk about your path to certification.

Option 2

RPOS / CONSULTANTS

An announcement for defense contractors and companies handling CUI.

[Your Company Name] has partnered with PreVeil to help our clients get through CMMC certification with confidence.

Why it matters: CMMC compliance is complex and expensive, and many tools create more problems than they solve. PreVeil is built for CMMC requirements with FedRAMP Moderate Equivalency and FIPS 140-3 validated end-to-end encryption, and companies are earning perfect 110/110 scores on the platform (100+).

Ready to discuss your CMMC journey? We'll help you choose the right technology and partners to get certified efficiently.

Option 3

RPOS / CONSULTANTS

Partnership alert 🎉 — [Your Company Name] is now partnered with PreVeil.

We know the challenges defense contractors face with CMMC compliance. That's why we've partnered with PreVeil — a proven leader in CMMC-compliant encryption and secure collaboration.

Together, we help companies:

- Protect Controlled Unclassified Information (CUI)
- Get CMMC certified faster
- Win and retain government contracts

The CMMC compliance deadline is approaching. If you're preparing for assessment, reach out to learn how PreVeil fits your strategy.

For MSPs & Resellers

Option 4

MSPS

A major addition to our security stack 🗝️ — [Your Company Name] is now an official PreVeil reseller partner, adding enterprise-grade encryption to our managed security services.

For our defense contractor and government clients facing CMMC requirements, this changes the math.

What we now deliver:

- FedRAMP Moderate Equivalent platform with FIPS 140-3 validated end-to-end encryption
- Secure email and file sharing proven to meet CMMC standards
- End-to-end encrypted collaboration tools
- Full MSP deployment, configuration, and ongoing support

We don't just resell licenses — we integrate PreVeil into complete CMMC compliance solutions and manage the stack from endpoints to encryption.

Need CMMC-compliant email and file sharing? Let's talk about a managed solution that works.

Option 5

MSPS

We're expanding our CMMC compliance capabilities 🗣️ — [Your Company Name] is now a PreVeil reseller and implementation partner.

Why it matters for our clients: CMMC compliance isn't just hardening endpoints and configuring firewalls. You need encryption that meets federal standards, and most email and drive solutions don't cut it.

PreVeil delivers:

- FedRAMP Moderate Equivalent platform
- Integration with your existing workflows
- Proven results in CMMC Level 2 assessments

As your MSP, we now provide complete CMMC technical solutions — from infrastructure hardening to compliant communication tools, managed under one roof.

Already working with us? Ask about adding PreVeil to your environment. New to CMMC? Let's build your compliant tech stack from the ground up.

Option 6

MSPS

News for our defense contractor clients 🎯 — [Your Company Name] has added PreVeil to our managed security portfolio as an official reseller partner.

As your MSP, we now deliver a complete, integrated CMMC solution:

- Endpoint hardening and configuration (we already do this)
- Network security and monitoring (we already do this)
- CMMC-compliant encryption for CUI (now we do this, with PreVeil)

We deploy it. We configure it. We manage it. You focus on winning contracts.

PreVeil isn't just another tool on the stack — it's the encryption that helps our clients earn perfect CMMC scores while we handle the technical complexity.

Ready to talk about your CMMC roadmap? We've got the full stack covered.
